CONTENTS

CHAPTER 1: THE FOUNDATIONS OF HERBAL CHEMISTRY	7
VISUALIZING PHYTOCHEMICALS	7
THE BASIC STRUCTURE OF PHYTOCHEMICALS	7
ELEMENTS IN PHYTOCHEMICALS	8
Carbon	8
Oxygen	9
Hydrogen	10
Nitrogen	10
Water	11
Sulfur	11
Phosphorus	11
PHYTOCHEMICAL BONDING	12
Resonance delocalization	12
Hydrogen bonding	13
Ionic bonding	13
POLARITY	13
FUNCTIONAL GROUPS	14
Hydroxyl group	14
Phenolic group	15
Carbonyl group	16
Aldehyde & ketone groups	16
Carboxyl group	17
Ester group	18
Acetate group	19
Ether group	19
Alkyl, alkenyl & alkynyl groups	20
Amino groups	21
Amide groups	21
Nitrile group	22
Sulfhydryl group	22
Sulfide groups	22
Sulfinyl group	23
Thiosulfinate group	23
Isothiocyanate & thiocyanate groups	23
Phosphate group	24
Methylenedioxy group	24
Epoxide group	25
SUMMARY OF FUNCTIONAL GROUPS	26
RINGS AND RING SYSTEMS	28
Cyclohexane vs. benzene	28
Heterocyclic rings	29
Oxygen heterocycles	29
Furans	29
Pyrans	30
Dioxans	31
Lactones	31
Nitrogen heterocycles	32
ISOMERS AND STEREOCHEMISTRY	34
Constitutional isomers	34
Stereoisomers	34
<i>Cis-trans</i> isomers	35
Isomers with chiral carbons	35
The chiral carbon	36
CHAPTER 2: SOLUBILITY AND EXTRACTION OF HERBAL CONSTITUENTS	38

POLARITY AND SOLUBILITY: SOLVENTS	38
POLARITY OF SOLVENT MIXTURES	39
Here comes the math!	39
Adding glycerin.....	40
Alcohol proof, water content & polarity	40
Solvent polarity & precipitation	40
OTHER INFLUENCES ON SOLUBILITY	41
SUPERCRITICAL CARBON DIOXIDE EXTRACTION	43
POLARITY AND SOLUBILITY: CONSTITUENTS.....	44
Carbohydrates.....	44
Lipids	44
Amino acids & derivatives.....	44
Phenolic compounds.....	45
Terpenoids (terpenes).....	45
Steroids	46
Alkaloids.....	46
Miscellaneous nitrogenous compounds	46
HYDROETHANOLIC PLANT EXTRACTS.....	47
PHYTOCHEMICAL STABILITY AND REACTIVITY	49
Constituent changes in drying herbs.....	49
Coumarins & dicoumarol	49
Other phytochemical changes	50
Oxidation & antioxidants	50
Antioxidants & free radicals.....	50
Heat stability	51
ORGANOLEPTIC EVALUATION	52
CHAPTER 3: SYNERGY AND VARIABILITY IN HERBS AND FORMULAS	53
THE ORIGINS OF PHYTOCHEMICAL SYNERGY.....	53
Co-evolutionary theory	53
Co-evolution: plants & animals	53
THE MEANING OF SYNERGY	54
Synergy vs. additive effects.....	54
DIFFERENT KINDS OF SYNERGY	54
Potentiating or positive synergy	54
Attenuating synergy	55
Stabilizing or protective synergy.....	55
Phytochemical vs. physiological synergy.....	55
STANDARDIZATION AND SYNERGY	56
PHYTOCHEMICAL VARIABILITY	56
Variability & chemotypes	56
Phytoalexins	57
Insect companions & predators	57
Humans & other animals.....	57
Fungi & mycorrhizae	57
Soil & water conditions	58
Bacteria, viruses & pathogenic fungi.....	58
Climate & weather	58
Seasonal cycles.....	58
Variability by plant part.....	59
Responsive variability.....	59
THE LESSON OF GRANDFATHER GINSENG	59
VARIABILITY AND STANDARDIZATION	60
Marker compounds & 'active' constituents.....	60
Advantages of standardization.....	60
Pitfalls of standardization	60
Standardization controversy	61

Standardization & phytochemical analysis.....	61
Fingerprinting.....	61
REFERENCES: SYNERGY AND VARIABILITY.....	62
CHAPTER 4: HERBAL CONSTITUENTS OUTLINE	63
1. CARBOHYDRATES	63
2. LIPIDS	64
3. AMINO ACID DERIVATIVES	65
4. PHENOLIC COMPOUNDS	65
5. TERPENES	68
6. STEROIDS.....	69
7. ALKALOIDS.....	70
CHAPTER 5: CARBOHYDRATES IN MEDICINAL PLANTS	73
MONOSACCHARIDES	73
Glucose.....	74
Fructose	74
Other monosaccharides.....	75
Uronic acids, sugar alcohols & amino sugars	76
DISACCHARIDES.....	77
OLIGOSACCHARIDES	77
POLYSACCHARIDES	78
Heteropolysaccharides.....	78
Gums.....	79
Pectins	79
Mucilages.....	79
Immunomodulating polysaccharides (IPs)	80
Polysaccharides in adaptogenic herbs	81
CARBOHYDRATE DERIVATIVES: THE ORGANIC ACIDS	81
Fruit acids.....	81
Oxalic acid	82
Sources of oxalates	83
Acids in Nettles stingers.....	83
REFERENCES: CARBOHYDRATES	84
CHAPTER 6: LIPIDS IN MEDICINAL FOODS AND HERBS	85
FATTY ACIDS.....	85
Fatty acid structure	85
Naming fatty acids	85
Saturated fatty acids (SFAs)	86
Monounsaturated fatty acids (MUFAs).....	87
Polyunsaturated fatty acids (PUFAs).....	87
Essential fatty acids (EFAs).....	88
Omega-3 fatty acids	88
Unsaturated Fatty Acid Summary Chart.....	89
Fatty acid balance in human metabolism	89
Some benefits of omega-3s	89
<i>Trans</i> fatty acids (TFAs)	90
TRIGLYCERIDES (TRIACYLGLYCEROLS OR TAGs).....	91
PHOSPHOLIPIDS.....	92
Phosphoglyceride Summary Chart	93
WAXES	93
ALKAMIDES	94
Alkamides in Echinacea species	94
Alkamides in Zanthoxylum	95
Spilanthes alkamides.....	96

Alkamides in Piper species	96
POLYALKYNES (POLYACETYLENES) AND POLYALKENES (POLYENES)	97
Polyalkyne & polyalkene ketones in Echinacea.....	97
Polyacetylenes in Panax.....	97
Polyacetylenes in Bidens.....	98
THIOPHENES	98
REFERENCES: LIPIDS	99
CHAPTER 7: AMINO ACIDS AND DERIVATIVES.....	101
L-Theanine.....	101
5-Hydroxytryptophan.....	101
AMINES	102
GLUCOSINOLATES	103
SULFUR COMPOUNDS FROM <i>ALLIUM</i> PLANTS.....	104
CYANOGENIC GLYCOSIDES	104
REFERENCES: AMINO ACIDS AND DERIVATIVES	106
CHAPTER 8: POLYPHENOLS	107
PHENOLIC ACIDS.....	107
PHENYLPROPANOIDS	108
COUMARINS	110
FURANOCOUMARINS (FUROCOUMARINS)	111
LIGNANS	111
Lignans in Flaxseed.....	112
Other lignans.....	112
Flavonolignans in Milk Thistle	113
PHENYLPROPANOID DERIVATIVES.....	113
Curcuminoids & gingerols	113
Capsaicinoids.....	114
STILBENOIDS.....	115
XANTHONES	115
STYRYLPYRONES	116
FLAVONOIDS.....	116
Anthocyanidins.....	117
Aurones.....	117
Chalcones	118
Flavanones	118
Flavones	119
Flavonols	120
Are flavonoids phytoestrogens?	121
HYDROLYZABLE TANNINS.....	121
PROANTHOCYANIDINS	122
Theaflavins & thearubigins.....	123
ISOFLAVONES (ISOFLAVONOIDS)	123
BENZOFURANS	124
CHROMONES	125
QUINONES	125
Isoprenoid benzoquinones.....	125
Naphthoquinones	125
Anthraquinones	126
PHLOROGLUCINOL DERIVATIVES	127
PHENOLIC RESINS AND PROPOLIS.....	127
REFERENCES: POLYPHENOLS	128
CHAPTER 9: TERPENOIDS	133

MONOTERPENES	134
Antiseptic monoterpenes.....	135
Citrus monoterpenes	136
Monoterpene lactones.....	136
SESQUITERPENES	137
Sesquiterpene lactones.....	138
ESSENTIAL OILS AND OLEORESINS	139
DITERPENES.....	139
Ginkgolides.....	140
Paclitaxel	140
Toxic diterpenes.....	140
TRITERPENES.....	140
Triterpenes in Black Cohosh.....	141
SAPONINS	141
Triterpenoid saponins	142
Steroidal saponins	143
Saponins in Pokeberry.....	144
BOTANICAL STEROIDS	144
Phytosterols & phytostanols	145
Cardiac glycosides	145
Miscellaneous steroids.....	146
TETRATERPENES (CAROTENOIDS)	147
Lycopene	147
Carotenes	147
Xanthophylls	148
Apocarotenoids.....	150
REFERENCES: TERPENOIDS.....	151
ALLANTOIN.....	154
METHYLXANTHINES.....	155
BETALAIN ALKALOIDS	156
Betacyanins	156
Betaxanthins	157
PYRROLIZIDINE ALKALOIDS (PA)	157
Toxicity of PA.....	157
Mutagenicity of PA.....	158
Occurrence in herbal medicines.....	158
PA in Comfrey.....	158
PA in Coltsfoot.....	159
ISOQUINOLINE ALKALOIDS	159
Aporphines.....	159
Protoberberines	160
Bloodroot alkaloids	161
PIPERIDINE ALKALOIDS.....	162
TROPANE ALKALOIDS.....	163
Atropine	163
Scopolamine.....	163
Tropanes in Datura.....	164
Tropanes in Deadly Nightshade	164
REFERENCES: ALKALOIDS.....	165
A PHYTOCHEMICAL FOLK TALE: THE COLORS OF VITALITY	167
PHYTOCHEMICAL GLOSSARY.....	169
RECOMMENDED READING	196
